RE: Docket No. 2020-43-E – Application of Dominion Energy South Carolina, Incorporated for a Certificate of Environmental Compatibility and Public Convenience and Necessity for the Construction and Operation of the of the Toolebeck - Aiken 230 kV Tie and Segments of the Graniteville #2 - Toolebeck 230 kV and Toolebeck - South Augusta 230 kV Tie, and Associated Facilities.

Dear Ms. Boyd:

By Order No. 2020-440 (“Order”), issued in the above-referenced docket and dated June 23, 2020, the Public Service Commission of South Carolina (“Commission”) granted Dominion Energy South Carolina, Inc. (“DESC”) a Certificate of Environmental Compatibility and Public Convenience and Necessity for the construction and operation of the Toolebeck - Aiken 230 kV Tie, Segments of the Graniteville #2 - Toolebeck 230 kV and Toolebeck - South Augusta 230 kV Tie, and Associated Facilities. In so doing, the Commission ordered, among other things, that DESC “notify the Commission and ORS regarding any changes to the planned commercial operation dates.”

By this letter, DESC hereby notifies the Commission that it has elected to extend the planned commercial operation dates for the Toolebeck - Aiken 230 kV Tie, Segments of the Graniteville #2 - Toolebeck 230 kV and Toolebeck - South Augusta 230 kV Tie, and Associated Facilities from December 31, 2021, to April 1, 2022. This three-month extension will allow DESC to complete the construction in the most financially responsible manner and will not impact DESC’s ability to maintain compliance with NERC Transmission Planning Standards and DESC’s Long-Range Planning Criteria.

By copy of this letter, DESC is also providing ORS with notification of the new planned commercial operation dates.

If you have any questions, please advise.

Very truly yours,

A handwritten signature in blue ink that reads "Matthew W. Gissendanner".

Matthew W. Gissendanner
